

Action Plans for Implementation of the I & E policy

About I & E Policy:

Innovation and Entrepreneurship policy has been initiated to create an environment of innovation and entrepreneurship and to nurture students, faculty members and new startups. This document represents the details of the Vikrant Incubation Centre policy and its various aspects.

Vision:

Promotion of startups and entrepreneurship based ecosystem and the culture of innovation for students and faculty members.

Mission:

To guide the innovators and provide them necessary resources for development.

Goals of Innovation and Entrepreneurship Policy:

There are two types of goals of innovation and entrepreneurship policy, short term goals and long terms goals, the details are as follows:

Short Term Goals:

- To support and promote at least 3 startups per year.
- To provide incubation facilities to the startups.
- To sign MoUs with other established incubation centres for the betterment of registered startups.

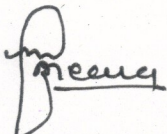

Long Term Goals:

- To help best 2 startups in terms of marketing and IP.

- To launch an overall incubation facility for new startups, and nurture them from the steps of idea creation to the marketing phase.
- To launch credit transfer schemes for students having potential startups.

Action Plan for Implementation of the I & E Policy:

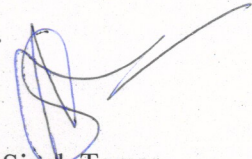

S. No.	Activity Planning
1	Promoting innovation and entrepreneurship activities at college level.
2	Creation of an innovation based ecosystem.
